

WIRELESS TEMPERATURE & HUMIDITY

NOW BATTERY OPERATED!

The **RxMS** Wireless Temperature & Humidity system is an environmental data logging tool that is utilized to monitor the operating environment of your equipment.

Temperature Probe Specifications:

- Range: 0° - 122° Fahrenheit
- Resolution: 0.02° Fahrenheit
- Accuracy: $\pm 1.5^\circ$ Fahrenheit

Additional Product Information:

- Individual log file created for each probe
- Programmable log rate of 1 minute to 30 minutes
- Up to 100 probes per monitor
- Range: Indoor up to 100 ft
- Line of Sight up to 1 mile
- Optional external power supply for permanent install
- Battery life between 2wks - 50wks dependant on log rate
- Magnetic backing for easy placement
- "Notes Feature" ideal for identifying and tracking of probes location. (Faster reporting of data)
- Dimensions: 3" x 4.5" x 1.5" (L/H/W)

Humidity Probe Specifications:

- Range: 0%-100% Relative Humidity Non-Condensing
- Resolution: 0.03% Relative Humidity
- Accuracy: $\pm 5\%$ Relative Humidity Full Range
